MT 89

Glass Railing System

KLEIDCO[®]

MT89

MT89 is an aluminum base shoe glass railing system designed to provide an installer friendly, dry-glazed system to achieve high structural performance

- All installation from interior with no need of scaffolding
- Pre-drilled
- Dry-glaze compression system eliminates the need for glazing cement
- Adjustable panels with an align key for easy alignment
- Removable panels in case of breakage
- Heavy duty 17.52mm laminated tempered glass (option up to 21.52 mm)
- Various top rail options
- Anodized or RAL powder coating

Performance in accordance with ASTM E2358-17, ASTM 2353-16, ANSI Z97.1-2015
